Announcement

17 January 2002

COURT APPROVES SALE OF EXODUS TO CABLE & WIRELESS

Transaction expected to complete late January/early February 2002

Cable and Wireless plc announced today, 17 January 2002, that the United States Bankruptcy Court for the District of Delaware has approved the agreement under which Cable and Wireless plc's wholly-owned subsidiary Digital Island Inc (together with other subsidiaries "Cable & Wireless"), will purchase selected assets and a majority of the business activities of Exodus Communications, Inc. in the United States (together the "Exodus Business").

The Exodus Business comprises substantially all of Exodus's United States customer contracts, together with selected corporate and data centre assets, know-how, intellectual property (including the Exodus brand), high quality employee base and other resources required to support these customers and grow the business.

The Bankruptcy Court's approval does not cover Cable & Wireless' proposed acquisition of Exodus's operations and data centers in London, Frankfurt and Tokyo which are the subject of separate agreements which are still being discussed with Exodus.

The transaction is expected to close during late January/early February 2002. The agreement remains subject to customary closing conditions.

CABLE & WIRELESS COMPLETES ACQUISITION OF PSINET JAPAN

Reinforcing position in internet services in Japan

Cable and Wireless plc ("Cable & Wireless"), the global telecommunications group, announced today (25 January 2002) that it has, through its subsidiary Cable & Wireless IDC, completed the acquisition of PSINet Japan, Inc. ("PSINet Japan") from PSINet Inc. for US\$16.6 million (approximately £11.5 million). The increase in the purchase price originally announced on 10 December 2001 results from Cable & Wireless bidding against another party at the court supervised auction which forms part of the sale process under Chapter 11 of the US Bankruptcy Code.

PSINet Japan provides IP (internet protocol) connectivity and web hosting services for enterprise customers in Japan. The company has points of presence within key Japanese cities, a data centre in Tokyo and provides services to several thousands of business customers.

The acquisition is intended to reinforce Cable & Wireless' position in Japan's growing internet market and accelerate the delivery of Cable & Wireless' strategy to provide IP and data services to business customers in Japan. PSINet Japan's unaudited revenue in the first half year 2001 was £28 million, generating positive EBITDA (under US GAAP) of £3.4 million in the same period, and the acquisition is expected to more than double Cable & Wireless's IP revenue within Japan.

Commenting on the announcement, Simon Cunningham, President and CEO Cable & Wireless IDC, said:

"This acquisition highlights our commitment to the Japanese market and clearly fits our strategy to grow our IP business within Japan. We will realise cost synergies through sharing a much larger infrastructure, whilst our continued commitment to quality will bring benefit to a much broader customer base."
